BRAIN RESEARCH

VOL. 563 NOS. 1/2 **CONTENTS** **1 NOVEMBER 1991**

Announcement from the Publisher v

Research Reports

Analgesia for formalin-induced pain by lateral hypothalamic stimulation
R. Lopez, S.L. Young and V.C. Cox (U.S.A.) 1

Exo-focal postischemic neuronal damage in the rat brain: alteration of [^{3}H]forskolin binding using in vitro autoradiography
H. Nagasawa and K. Kogure (Japan) 7

Sexual maturation modifies the GABAergic control of gonadotrophin secretion in female rats
J.A. Moguilevsky, S. Carbone, B. Szwarcfarb and D. Rondina (Argentina) 12

Identification and characterization of specific binding sites of [^{3}H]spermidine in synaptic membranes of rat brain
Y. Yoneda, K. Ogita, R. Enomoto, T. Suzuki and S. Kito (Japan) 17

Cultured astrocytes release proenkephalin
D.K. Batter, M.-H. Vilijn and J. Kessler (U.S.A.) 28

Therapeutic window of halothane anesthesia for reversal of delayed neuronal injury in gerbils: relationship to postischemic motor hyperactivity
T. Kuroiwa, P. Bonnekoh and K.-A. Hossmann (F.R.G.) 33

Coupling of human brain cerebral cortical α_2-adrenoceptors to GTP-binding proteins in Alzheimer's disease
C. O'Neill, C.J. Fowler, B. Wiehager, R.F. Cowburn, I. Alafuzoff and B. Winblad (Sweden) 39

Regional catecholamine levels in brains of normal and ethanol-tolerant long-sleep and short-sleep mice
E.N. Shafik, S.P. Aiken and J.J. McArdle (U.S.A.) 44

On the mechanism of spontaneous recovery of neuromuscular transmission after acetylcholinesterase inhibition in the rat neuromuscular junction
B.P.C. Melchers and A.L. Van der Laaken (The Netherlands) 49

Effects of chronic administration of MK-801 upon local cerebral glucose utilisation and ligand binding to the NMDA receptor complex
A. Kurumaji, M. Ikeda, D. Dewar, A.G. McCormack and J. McCulloch (U.K.) 57

Autoradiographic distribution of TRH binding sites in the human hypothalamus
M. Najimi, F. Chigr, J. Champier, A. Tabib, N. Kopp and D. Jodani (France) 66

Immunocytochemical characterization of the suprachiasmatic nucleus and the intergeniculate leaflet in the diurnal ground squirrel, *Spermophilus lateralis*
L. Smale, J. Blanchard, R.Y. Moore and L.P. Morin (U.S.A.) 77

Retinally perceived light can entrain the pineal melatonin rhythm in Japanese quail
R.K. Barrett and H. Underwood (U.S.A.) 87

Both arachidonic acid and 1-oleoyl-2-acetyl glycerol in low magnesium solution induce long-term potentiation in hippocampal CA1 neurons in vitro
K. Kato, K. Uruno, K. Saito and H. Kato (Japan) 94

Sulfated glycoprotein-2 is increased in rat hippocampus following entorhinal cortex lesioning
M. Lampert-Etchells, T.H. McNeill, N.J. Laping, C. Zarow, C.E. Finch and P.C. May (U.S.A.) 101

Effect of dexamethasone implanted in different brain areas on the morphine-induced PRL, GH and ACTH/corticosterone secretion
D.T. Kiem, L. Bartha and G.B. Makara (Hungary) 107

Effects of the autoimmune uterine/maternal environment upon cortical ectopias, behavior and autoimmunity
V.H. Denenberg, L.E. Mobraaten, G.F. Sherman, L. Morrison, L.M. Schrott, N.S. Waters, G.D. Rosen, P.O. Behan and A.M. Galaburda (U.S.A., U.K.) 114

Dissociation of antinociceptive and motor effects of supraspinal opioid agonists in the rat
L.S. Franck, C. Miaskowski, J. Putris and J.D. Levine (U.S.A.) 123

N-Methyl-D-aspartate, quisqualate and kainate receptors are all involved in transmission of photic stimulation in the suprachiasmatic nucleus in rats
Y. Takeuchi, M. Takashima, Y. Katoh, T. Nishikawa and K. Takahashi (Japan) 127

Chronic opiate agonists down-regulate prodynorphin gene expression in rat brain
P. Romualdi, G. Lesa and S. Ferri (Italy) 132

Angiotensin II-induced noradrenaline release from anterior hypothalamus in conscious rats: a brain microdialysis study
F. Qadri, E. Badoer, T. Stadler and T. Unger (F.R.G.) 137

Gadolinium block of calcium channels: influence of bicarbonate
L.M. Boland, T.A. Brown and R. Dingledine (U.S.A.) 142

Regulation of aberrant neurofilament phosphorylation in neuronal perikarya. III. Alterations following single and continuous β,β'-iminodipropionitrile administrations
B.G. Gold and D.R. Austin (U.S.A.) 151

Cellular mapping of m2 muscarinic receptors in rat olfactory bulb using an antiserum raised against a cytoplasmic loop peptide
M.I. Fonseca, J.S. Aguilar, A.F. Skorupa and W.L. Klein (U.S.A.) 163

(*contents continued on p. 360*)

Contents continued

Prolactin response to morphine in intact and adrenalectomized lactating rats
D.T. Kiem, M.I.K. Fekete, L. Bartha, G. Nagy and G.B. Makara (Hungary) 171
Convergence of multi-modal sensory signals at thoracic interneurons of the escape system of the cockroach, *Periplaneta americana*
R.E. Ritzmann, A.J. Pollack, S.E. Hudson and A. Hyvonen (U.S.A.) 175
Localization of Alzheimer βA4 amyloid precursor protein at central and peripheral synaptic sites
W. Schubert, R. Prior, A. Weidemann, H. Dircksen, G. Multhaup, C.L. Masters and K. Beyreuther (F.R.G., Australia) 184
Recovery of denervated muscle receptors following treatments to accelerate nerve regeneration
J.J.A. Scott (U.K.) 195
Enkephalins, substance P and acetylcholine microinjected into the nucleus ambiguus elicit vagal bradycardia in rats
S.K. Agarwal and F.R. Calaresu (Canada) 203
Prolonged inflammatory pain modifies corticotropin-releasing factor-induced opioid peptide release in the hypothalamus
T.S. Shippenberg, A. Herz and K. Nikolarakis (F.R.G.) 209
Regional changes in central monoamine and metabolite levels during the hibernation cycle in the golden-mantled ground squirrel
L.L. Haak, E. Mignot, T.S. Kilduff, W.C. Dement and H.C. Heller (U.S.A.) 215
Streptomycin blocks the postsynaptic effects of excitatory amino acids on the vestibular system primary afferents
M.E. Pérez, E. Soto and R. Vega (México) 221
Characterization of the glycogenolysis elicited by vasoactive intestinal peptide, noradrenaline and adenosine in primary cultures of mouse cerebral cortical astrocytes
O. Sorg and P.J. Magistretti (Switzerland) 227
Effects of soman-induced seizures on different extracellular amino acid levels and on glutamate uptake in rat hippocampus
G. Lallement, P. Carpentier, A. Collet, I. Pernot-Marino, D. Baubichon and G. Blanchet (France) 234
Drastic changes of ventromedial medulla neuronal properties induced by barbiturate anesthesia. I. Comparison of the single-unit types in the same awake and pentobarbital-treated rats
J.-L. Olivéras, J. Montagne-Clavel and G. Martin (France) 241
Drastic changes of ventromedial medulla neuronal properties induced by barbiturate anesthesia. II. Modifications of the single-unit activity produced by Brevital, a short-acting barbiturate in the awake, freely moving rat
J.-L. Olivéras, G. Martin and J. Montagne-Clavel (France) 251
Chemical stimulation of the rostral ventrolateral medullary pressor area decreases cerebral blood flow in anesthetized rats
M. Maeda, A.J. Krieger, M. Nakai and H.N. Sapru (U.S.A., Japan) 261

Short Communications

Mesencephalic sites of action of an enkephalin analogue (D-Met^2, Pro^5)-enkephalinamide and naloxone on the anterior pituitary of male rats
J. Molnár and B. Halász (Hungary) 270
Focal elevations in neocortical interstitial K^+ produced by stimulation of the fastigial nucleus in rat
C. Iadecola and R.P. Kraig (U.S.A.) 273
Further investigations into the pathophysiology of MPTP-induced parkinsonism in the primate: an intracerebral microdialysis study of γ-aminobutyric acid in the lateral segment of the globus pallidus
R.G. Robertson, W.C. Graham, M.A. Sambrook and A.R. Crossman (U.K.) 278
Stereoselective inhibition by D- and L-alanine of phencyclidine-induced locomotor stimulation in the rat
Y. Tanii, T. Nishikawa, A. Hashimoto and K. Takahashi (Japan) 281
Does insulin-like growth factor I trigger the cell body reaction in the rat sciatic nerve?
M. Kanje, A. Skottner, G. Lundborg and J. Sjöberg (Sweden) 285
Immunohistochemical localization of myelin-associated glycoprotein isoforms during the development in the mouse brain
H. Ishiguro, S. Sato, N. Fujita, T. Inuzuka, R. Nakano and T. Miyatake (Japan) 288
The cytoarchitectonic boundaries of the monocular and binocular areas of the rat primary visual cortex
S.N.M. Reid and J.M. Juraska (U.S.A.) 293
The effects of noradrenergic neurotoxin, DSP-4, on the performance of young and aged rats in spatial navigation task
J. Sirviö, P. Riekkinen Jr., A. Valjakka, J. Jolkkonen and P.J. Riekkinen (Finland) 297
Soman reversibly decreases the duration of Ca^{2+} and Ba^{2+} action potentials in bullfrog sympathetic neurons
T.J. Heppner and J.F. Fiekers (U.S.A.) 303
Differential alterations of second messenger systems and cerebral glucose use following excitotoxic lesion of rat cerebral cortex
K. Horsburgh and J. McCulloch (U.K.) 306
In vitro aging of β-amyloid protein causes peptide aggregation and neurotoxicity
C.J. Pike, A.J. Walencewicz, C.G. Glabe, and C.W. Cotman (U.S.A.) 311
Effects of ethanol on the excitability of hippocampal granule neurons
G.L.F. Yuen, M. Patil and D. Durand (U.S.A.) 315
Novel inward rectifier blocked by Cd^{2+} in crayfish muscle
A. Araque and W. Buño (Spain) 321
Separation of α_1, α_2 and α_3 subunits of the $GABA_A$-benzodiazepine receptor complex by immunoaffinity chromatography
J. Zezula, K. Fuchs and W. Sieghart (Austria) 325
Ultrastructural analysis of noradrenergic nerve terminals in the cat lumbosacral spinal dorsal horn: a dopamine-β-hydroxylase immunocytochemical study
C.A. Doyle and D.J. Maxwell (U.K.) 329
Expression of APP in the early stage of brain damage
T. Kawarabayashi, M. Shoji, Y. Harigaya, H. Yamaguchi and S. Hirai (Japan) 334
Effects of daytime and nighttime stress on Fos-like immunoreactivity in the paraventricular nucleus of the hypothalamus, the habenula, and the posterior paraventricular nucleus of the thalamus
N. Chastrette, D.W. Pfaff and R.B. Gibbs (U.S.A.) 339
Normal rate of Schwann cell proliferation in the MBP-deficient shiverer mouse during Wallerian degeneration
A. Komiyama and K. Suzuki (U.S.A.) 345
Activation of brown adipose tissue thermogenesis by chemical stimulation of the hypothalamic supraoptic nucleus
S. Amir and E. De Blasio (Canada) 349
Modulation of cortical in vivo acetylcholine release by the basal nuclear complex: role of the pontomesencephalic tegmental area
R. Bertorelli, G. Forloni and S. Consolo (Italy) 353
